

A Camp 4 Girls will be held in Slovakia 4.-11.8.2019. The main topic is spirituality and identity of girl with motto: Let yourself be you!

Place: Kláštorisko (760mt. altitude) is an archeopark and touristic place in the heart of national park Slovak Paradise. In the middle of canyons, gorges, caves and streams is located a ruin of a monastery from the beginning of the 14th century. Man always found his permanent or temporary residence here since prehistoric times. In the 13th century Kláštorisko saved citizens of nearby cities and villages from attacks of Tatars. By the Articles of association of a monastery (12th December 1299) on "Skala útočiska (The Rock of Refuge)" begins more than 250 years of operation of the silent Carthusian order. They named this place "Raj (Paradise)" and this name stayed until nowadays. The monastery is constantly renovated since 1983 every summer by many volunteers from all around the Europe.
